

Lake George Tract

No. of Lots 10 Mapped August, 1921

Water System Installed By None

Road Built By None

Electrical Service None Telephone None

Access Via boat 1/2 mile from Lake George Campgrounds and small trail along lake edge.

Lots Front On Lake George

Terrain In Subdivision All sites located on sidehill overlooking Lake George. Terrain is steep sidehill, with moderate to heavy tree growth. The elevation is approximately 8,500'.

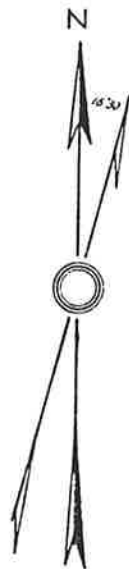

Comments Water is supplied by nearby streams to individual lots. Public sewer system was not required by Lahontan Regional Water Quality Control Board because local residents were able to show that sewer installation would be more adverse to environment than septic tanks.
